

Company Overview

COI Energy is the first energy on-demand marketplace that enables businesses and utilities to buy, sell and gift energy capacity where it is needed. What better way to motivate customers to engage with their electric utility company than delivering real value to them by putting money in their pockets?

COI Energy's patent-pending technology, the COI Optimizer™, sets the company apart from its competitors by unlocking the power of energy assets in buildings to generate cash. COI Energy has become the "Lyft of Energy" because of its unique ability to create cash flow from excess energy capacity. The COI Optimizer™ is a cloud based solution that provides Utility companies a fast, simple and cost effective way to intelligently manage their in-house demand management programs.

The values that guide us and everything we do:

1. Put Customers First
2. Employee Empowerment
3. Thrive on Innovation
4. Integrity
5. Transparency
6. Give Back and Pay it Forward
7. Lead with Excellence
